

Paired direction-resolved evidence adjudication

L006	
Evidence item	Frozen result
Shared discovery	3/3 target variants
Quantitative EUR LD	737/738; PSD PASS
Unified SuSiE	1 AMD + 3 POAG signals
Unified coloc PP4	0.9756
Signal-level CS overlap	n = 10
Harmonized direction	OPPOSITE
LAVA local estimate	$\rho = -0.332$; $P = 0.0942$
Final evidence category	Candidate opposite-effect shared signal

L007	
Evidence item	Frozen result
Shared discovery	3/3 target variants
Quantitative EUR LD	720/723; PSD PASS
Unified SuSiE	3 AMD + 1 POAG signal
Unified coloc PP4	0.9678
Signal-level CS overlap	n = 3
Harmonized direction	CONCORDANT
LAVA local estimate	$\rho = 0.067$; $P = 0.6396$
Final evidence category	Concordant shared-signal contrast

Shared-signal support and direction are reported separately; PP4 and credible-set overlap do not establish a shared causal variant
