

L006 adjudication gate

Observed evidence

	Opposite discovery direction	3/3 target variants
	Quantitative EUR LD QC	737/738; PSD PASS
	Unified SuSiE convergence	AMD + POAG
	Unified coloc PP4	0.9756
	Signal-level CS overlap	n = 10
	LAVA local P	0.0942; CI spans 0
	Independent replication	not available

Interpretation: TIER1 candidate antagonistic locus; local sensitivity and replication remain limitations.
